Professional Profile

Seasoned software professional with deep expertise in Go, Python, and Crossplane. 6 years of experience delivering mission-critical systems.

Core Competencies

Go · Python · Crossplane · CDK · Istio · K3s · Envoy · Kubernetes · Skopeo · Azure DevOps · Argo Workflows · PagerDuty · Opsgenie · GCP · Oracle Cloud · Alibaba Cloud · Linode · Hetzner · Kale · Seldon · TorchServe · Infrastructure as Code · Zero Trust · GitOps

Professional Experience

Cloud Engineer at HashiCorp (2024-11 – Present)

- Built disaster recovery solution using CDK, achieving RTO of 217ms
- Implemented container orchestration using Alibaba Cloud, managing 100+ containers

Cloud Engineer at Figma (2022-12 – 2024-10)

- Designed and implemented infrastructure as code using Chaos Engineering, managing 100000+ servers
- Designed and implemented infrastructure as code using Chaos Engineering, managing 1000+ servers

MLOps Engineer at DataPulse (2020-06 – 2022-11)

- Established chaos engineering practices using Istio, improving system resilience
- Built disaster recovery solution using GitHub Actions, achieving RTO of 128ms
- Established GitOps workflows using GitHub Actions, improving deployment frequency by 69%

Education

B.Sc. in Electrical Engineering — TU Munich (2021)
