

Joseph Lopez

Lead DevOps / SRE / MLOps | 9.1+ Years Experience

joseph.lopez@yahoo.com | 8524480880 | North Taylor, Japan

<https://linkedin.com/in/joseph-lopez>

Executive Summary

Lead devops / sre / mlops professional with 9 years driving technical strategy and team excellence. Expert in HCL, Python, YAML with track record of building and scaling engineering teams.

Leadership Experience

DevOps Engineer

2022-09 – Present

VectorDB Inc

Implemented security scanning using CircleCI, identifying 100000+ vulnerabilities
Built CI/CD pipelines using CircleCI, reducing deployment time from 19s to 296ms
Established chaos engineering practices using Terraform, improving system resilience
Established GitOps workflows using CircleCI, improving deployment frequency by 43%

Cloud Engineer

2021-05 – 2022-09

CloudNova

Built automated backup solution using DigitalOcean, ensuring 5000% data protection
Implemented container orchestration using GitOps, managing 500+ containers
Created self-service provisioning portal using Infrastructure as Code, serving 100000+ engineers
Established GitOps workflows using GitOps, improving deployment frequency by 55%

Cloud Engineer

2017-01 – 2021-04

Palantir

Implemented container orchestration using Argo Workflows, managing 1000+ containers
Optimized cloud infrastructure using Argo Workflows, reducing costs by 56%
Optimized cloud infrastructure using TensorFlow Serving, reducing costs by 34%

Education

B.A. in Information Technology — Technion, 2017
