RESEARCH INTERESTS

Seasoned software professional with deep expertise in JavaScript, R, and SQL. 6 years of experience delivering mission-critical systems.

EDUCATION

University of Melbourne
B.Tech. in Data Science

2017

PROFESSIONAL EXPERIENCE

Product Owner, DataPulse

2025-03 – Present

Developed product roadmap using Snowflake, prioritizing 100+ features
Created product backlog using Scrum, managing 1000+ user stories
Conducted user research using Scrum, interviewing 1000+ users

Product Manager, Snowflake

2023-03 – 2024-11

Implemented A/B testing using GCP, running 500+ experiments
Created product backlog using Azure, managing 1000+ user stories
Developed OKR tracking using Notion, achieving 51% of quarterly goals
Created product documentation using GCP, serving 100+ stakeholders

Product Owner, CodeReview.io

2018-11 – 2022-09

Created product documentation using Azure, serving 10000+ stakeholders
Built customer feedback system using Agile, collecting 100000+ insights

TECHNICAL PROFICIENCIES

JavaScript, R, SQL, Python, Confluence, Productboard, Notion, Tableau, Zoom, Google Analytics,
PostgreSQL, MySQL, BigQuery, GCP, AWS, Azure, Agile, Kanban, User Research, Scrum, A/B Testing

CERTIFICATIONS

Product Management Certificate — Product School, 2022

PMP - Project Management Professional — PMI, 2024

SELECTED PROJECTS

ML Model Registry [Python, Confluence, JavaScript] — Designed and implemented OKR Tracking with JavaScript, integrating with Confluence for seamless data flow

PDF Parser Toolkit [Confluence, Notion, Python] — Designed Release Planning leveraging Python microservices architecture with Confluence for caching

PUBLICATIONS & OTHER

Passionate about AI ethics and building technology that makes a difference.
