

Donna Bishop

Senior Data Science / ML / AI | 7.8+ Years Experience

donna.bishop@gmail.com | (352)395-9611 | East Amberfort, Singapore

<https://linkedin.com/in/donna-bishop>

Executive Summary

Senior data science / ml / ai engineer with 8 years of experience architecting and delivering enterprise solutions. Expert in SQL, Python, Julia with demonstrated leadership in cross-functional teams.

Leadership Experience

NLP Engineer 2022-07 – Present

Block

- Created recommendation system using AWS SageMaker, increasing user engagement by 67%
- Built end-to-end ML pipeline using AWS SageMaker, processing 100+ samples daily
- Developed computer vision models using Bedrock, achieving 24% accuracy

Data Scientist 2017-12 – 2022-02

Snowflake

- Created recommendation system using Polars, increasing user engagement by 25%
- Implemented NLP solution using OpenCV, processing 10000+ text documents daily
- Implemented NLP solution using OpenCV, processing 10000+ text documents daily
- Established MLOps practices using OpenCV, reducing model deployment time by 48%

Education

M.Sc. in Mathematics — Columbia University, 2017

B.Tech. in Mathematics — Columbia University, 2017

Key Skills

SQL | Python | Julia | Go | MATLAB | Claude API | Keras | LlamaIndex | Hugging Face | Polars | Spark | MLflow | Weights & Biases | Dagster | Weaviate | Qdrant | Lambda Labs | Azure ML | Fine-tuning | MLOps | Feature Engineering | RAG
