

Samuel Ortega

Backend Engineering — Hernandezberg, UAE

samuel.ortega@yahoo.com · 001-577-558-4466x345 · <https://github.com/samuelortega>

Profile

Results-driven backend engineering professional with 3 years of experience designing and implementing scalable solutions using PHP, Rust, ASP.NET. Track record of delivering high-impact projects.

Experience

LLM Engineer	at CodeReview.io	2025-06 – Present
Architected and built RESTful APIs serving 500+ requests/day using OpenAI API, reducing response time by 32%		
Designed and implemented microservices architecture using Go, handling 500+ concurrent users		
Led migration from monolithic to microservices using Go, improving system scalability by 34%		
AI Engineer	at Apple	2023-11 – 2024-12
Built event-driven architecture using Gin, processing 50000+ events daily		
Led migration from monolithic to microservices using Claude API, improving system scalability by 64%		
Designed and implemented microservices architecture using LangChain, handling 100000+ concurrent users		
Led migration from monolithic to microservices using Claude API, improving system scalability by 55%		
Platform Engineer	at DeployFast	2022-06 – 2023-10
Designed and implemented message queue system using DynamoDB, processing 10000+ messages/hour		
Built event-driven architecture using SQLite, processing 1000+ events daily		

Education

B.A., Software Engineering	2022
Carnegie Mellon University	
B.Tech., Cybersecurity	2021
Tsinghua University	

Technical Skills

PHP, Rust, ASP.NET, Flask, LangChain, MySQL, Neon, DynamoDB, Cassandra, SQLite, GitHub Actions, gRPC, Kafka, Fly.io, Heroku, Cloudflare, GCP, Render, Google Gemini, OpenAI API, Anthropic, AWS Bedrock, Replicate, Microservices, REST API Design, LLM Integration, Agile
