

Trevor Cole

Data Science / ML / AI — New Donna, Brazil

trevor.cole@outlook.com · (206)901-4886x0849 · <https://linkedin.com/in/trevor-cole> · <https://github.com/trevorcole>

Profile

Experienced software engineer with expertise in Scala, Python, and Julia. Proven ability to lead technical initiatives and mentor junior team members.

Experience

Data Analyst	at Figma	2023-12 – Present
Built end-to-end ML pipeline using Pandas, processing 500+ samples daily		
Implemented NLP solution using XGBoost, processing 5000+ text documents daily		
Designed data warehousing solution using Dask, enabling analytics on 100000+ records		
Built real-time analytics dashboard using MLflow, used by 100000+ stakeholders		

Research Scientist	at Twilio	2021-11 – 2023-12
Implemented A/B testing framework using Qdrant, running 1000+ experiments		
Created feature engineering pipeline using Qdrant, reducing preprocessing time by 24%		

Education

B.A., Electrical Engineering	2022
TU Delft	

Technical Skills

Scala, Python, Julia, R, XGBoost, TensorFlow, Keras, LlamaIndex, MLflow, Airflow, Weights & Biases, Kubeflow, MongoDB, Weaviate, PostgreSQL, Qdrant, ChromaDB, Hugging Face Endpoints, GCP Vertex AI, Statistical Modeling, LLM Evaluation

Other

Publication: "Sister talk understand home rise concern prevent" — EMNLP 2025

Personal_statement: Passionate about AI ethics and building technology that makes a difference.
