

James Patel

Lead Backend Engineering | 8.9+ Years Experience

james.patel@protonmail.com | +1-761-912-3126x16324 | Port Wendy, Germany

<https://linkedin.com/in/james-patel>

Executive Summary

Senior technical leader specializing in backend engineering with expertise in Kotlin, C#, Python. Proven success in technical vision, team development, and stakeholder management.

Leadership Experience

AI Engineer

2022-09 – Present

Cloudflare

Designed and implemented message queue system using REST API Design, processing 50000+ messages/hour

Architected and built RESTful APIs serving 5000+ requests/day using REST API Design, reducing response time by 36%

Built automated CI/CD pipelines with MongoDB, reducing deployment time by 61%

LLM Engineer

2019-12 – 2022-09

Supabase

Reduced infrastructure costs by 45% through optimization using ASP.NET

Designed and implemented message queue system using Nginx, processing 100000+ messages/hour

Led migration from monolithic to microservices using Hugging Face, improving system scalability by 67%

Designed and implemented microservices architecture using Hugging Face, handling 1000+ concurrent users

Server-Side Developer

2017-11 – 2019-12

Datadog

Implemented caching layer with Agile, reducing database load by 23%

Architected and built RESTful APIs serving 50000+ requests/day using Redis, reducing response time by 39%

Optimized database queries using Django, improving query performance by 39%

Backend Developer

2017-01 – 2017-08

PromptStack

Designed and implemented microservices architecture using AWS, handling 1000+ concurrent users

Optimized database queries using CI/CD, improving query performance by 51%

Education

B.A. in Information Technology — NUS, 2018

B.A. in Computer Science — McGill University, 2015

Key Skills

Kotlin | C# | Python | TypeScript | Go | LangChain | Flask | CockroachDB | Elasticsearch | SQLite | Docker |
Terraform | DigitalOcean | GCP | Fly.io | Render | Vercel | Anthropic | AWS Bedrock | Replicate | OpenAI API |
REST API Design | Microservices | LLM Integration | RAG Architecture
